Date Tested: 12/11/2018

ND = Not Detected; PPM in 1 gram of product; The state of California has not yet set limits on residual solvents for medical cannabis products. For class III solvents the 5000 ppm limit set forth in the United States Pharmacopeia <467> chapter on residual solvents residual solvents is followed. For class II solvents a 10x stricter limit than USP <467> is followed. Class I solvents are forbidden. For hydrocarbon solvents not covered by USP <467> a limit of 500 ppm is set which is similar to other state guidelines for cannabis products. HL105.10-01 Restek Headspace FID HL231
