Be Aware: *“When you purchase a digital camera, it doesn’t make you a professional photographer. It makes you the owner of a digital camera.”*

About Don: Don has 30 years experience photographing business portraits. He has photographed U.S. Presidents, Governors, Senators, Celebrities, CEOs, Lawyers, Doctors, and many Entrepreneurs over the last 30 years. When you want to portray a particular image, lighting is critical. Posing is critical. You need someone you can trust that is professionally trained in all aspects of photography and light. Don has the expertise you need.

Please compare the images below. Also look at the images on your own website.
Are they the before or after? Is it professional, clean, polished?
