*"Let me show you the journey of your life through portraits."*

—SUE BRYCE

*"We worked with another photographer and the photos were good, but they didn't capture his character like you did. The photos you took are amazing"*

*-R.B.*

## I am a FULL SERVICE portrait photography studio.

You can expect a tailored session – Every senior, teen, tween and milestone is unique, and I believe your portraits should reflect that. We'll work together to create a session that tells your story in the most authentic way. After the session I'll help you narrow down the photos to only the ones you can't walk away from so you only leave with the memories you want.

# YOU WILL LEAVE FEELING SUSPICIOUSLY CONFIDENT!

## Is this your first time being professionally photographed?

It can be awkward at first, that's why I believe in the power of a style consultation. It breaks the ice and allows you to meet me, plan things and put you at ease before I ever pull the camera out.

## You will have an amazing time.

Get ready for an amazing portrait experience that will leave you with new found confidence. I'm here to bring out your best self all while capturing your unique personality and passions.

Expect laughter, jokes, a laid-back atmosphere that will make you feel comfortable in no time! Trust me, I'll have you feeling confident in no time. I've been doing this for over 10 years. I've learned to blend what seniors want with what moms love for a custom, high-end portrait experience.

# THE REVEAL

Approximately two weeks after your session, you'll see your images for the first time in person. This is often the most emotional and rewarding part! Depending on the portrait session you choose you will see between 30-100 portraits. We will sort through the images and design your album and wall art together.

I can even design graduation announcements, acrylic desktop displays or put together an order of traditional matted prints. What you buy is entirely up to you. My job is simply to take the most amazing portraits you have ever seen of yourself that you want to buy them all!

## A week or two before your photoshoot, schedule some "me time" to pamper yourself.

This is when you'll want to start getting ready for your photo session. Schedule a manicure the day before or at least trim your nails and remove chipped polish. Make an appointment the week of with your stylist or favorite salon to touch up your hair cut or color if needed. These little touch ups can go a long way to making you feel even more confident and camera ready!

Gather your wardrobe together or go shopping for something new! Have it all steamed, organized and hung up so it's wrinkle free. Get plenty of rest the night before and make sure to have a meal before your session. Simple preparations go a long way towards a great photoshoot!

## LET'S TALK SKIN AND MAKEUP!

Use a light foundation to cover any unevenness in skin tone if you prefer. I do recommend girls use mascara and lip gloss. Don't pick at or worry about blemishes, I remove things like blemishes in post production. Guys, if you shave your facial hair do so the night before to allow skin to be free of razor burn. Avoid sunburn. Removing peeling or red skin and tan lines will incur additional retouching fees.

## How you style your clothing depends on the type of portrait session you choose.

After you schedule your photoshoot, we will talk about what type of portrait session you want, where you want to be photographed and how you want to be photographed and start planning your wardrobe.

There are many options when it comes to getting your clothing ready for your portrait session. You can dig in your wardrobe at home. You can buy new outfits from stores. Borrow outfits from your friends or family. You can even choose pieces from our in-studio wardrobe collection. I always recommend bringing accessories such as sunglasses, boots, hats, jewelry and scarves to easily add a different look to any outfit. If you are getting family portraits, choose complimentary colors rather than matching colors. If you are unsure, please ask me what will photograph well!

*"The care and love that Danielle puts into her work is amazing!"*

# TESTIMONIAL

"Words cannot express how grateful I was for Danielle to take my daughter's senior pictures. Danielle touched base with us at least 3 times prior to our session to make sure we were on track and if any questions came up. My daughter was nervous and dreading the process of it all. She does not like changing outfits. Danielle made my daughter feel so comfortable! My daughter said, at the end, that she actually had fun!" - Janel R.

# SENIOR GIRLS

*"It was actually better than I thought it would be. I had fun!"*

—Regan R.

Senior girls from different schools, with different styles, personalities, and interests, have chosen me because I don't create copy and paste photos. Whether I'm photographing an athlete, an artist, a girl who loves being in front of the camera, or someone a little more quiet, my goal is always to create images that feel elevated, personal, and true to who she is.

I simply guide every session so no one feels awkward or unsure, but I also make plenty of space for her personality and style to shine through. I want each senior girl to walk away with an experience that feels fun, relaxed, and completely her.

*Families choose me because of my creativity, the full service experience I provide and the supportive guidance through every step of the process*

# SENIOR GUYS

Senior guy sessions are built to feel relaxed, natural, and true to who he is. Whether we create something bold in the studio with creative lighting or keep it classic outdoors, I guide the session in a way that feels easy and comfortable, never forced. And just because you did not play sports, do not have a flashy car, or feel like you don't have the "right" clothes does not mean you do not deserve great senior photos. My goal is to create images that feel confident, polished, and personal for every senior guy no matter what the fear is.

*"If my mind can conceive it and my heart  
can believe it - then I can achieve it."*

-Muhammad Ali

# TEEN CONFIDENCE

## Fresh, fun, and beautiful.

A photo experience that starts with a Confidence Session focused completely on her, with the option to add a Best Friend session, a Birthday session, or have all three. Because this age is not always easy. Friendships are big. Confidence can be shaky. And girls need things to look forward to!

Booking a confidence portrait session for your teen starts at \$490

My teen confidence sessions are designed for girls with all kinds of personalities, styles, and interests, because confidence does not look the same on everyone. Some girls come in bold and expressive, others are a little more reserved, and I love creating space for each one to feel comfortable, seen, and genuinely confident. I guide the session every step of the way so she never has to wonder what to do, while still making sure the final images feel natural, personal, and true to her. My goal is always to create an experience that feels fun, encouraging, and empowering from start to finish.

I get to work with so many incredible people each year. Here is a look at some of my favorite photoshoots to give you an idea of what a portrait session with me can look like. You can also check out more on my website at:

## It's like having your own time machine!

I don't just take photos – I create memories and heirlooms that last a lifetime. My work goes beyond digital files; it's about crafting something meaningful and personal for your family. I feel I would be doing you a disservice throwing your beautiful portraits on a USB and sending you on your way. I do offer digitals but they are not they only option.

We will create more than just snapshots. They're moments captured beautifully, so you can relive them every time you walk by a portrait on the wall or turn the pages of a signature album. What I create isn't meant to live just on a screen – it's meant to be seen, touched, and treasured every day.

You can choose from print collections, graduation announcements, wall art, signature photo albums, digital packages and desktop displays. See samples during your free consultation to see if we're a right fit!

To schedule a complimentary consultation please call
